NOTICE OF ALLOWANCE

Allowable Subject Matter

1. It is in the opinion of the examiner that the art of record neither anticipates nor renders obvious "...a concave recess formed in an outer edge of the terminal portion adjacent to the second intersection, the concave recess having a radius of curvature that is adapted to receive a portion of a mounting clip" and "...seating the fence wire in a first pocket in the tool and one of the ends in a recess in the tool" in combination with the rest of the claimed limitations set forth in the independent claim.

2. Further searching by the examiner yielded additional prior art as follows:

Cooper (US Patent 791,009) discloses a hand tool having a body, intermediate, and terminal portions with a rectangular finger (19). However, this reference does not disclose that the above-mentioned portions are co-planar, defining a continuous flat blade.

McNulty (US Patent 584,3969) discloses a tool having several portions with a finger and a concave recess (12) at the tip of the tool.

3. However the above prior art fails to disclose a reasonable combination of "...a concave recess formed in an outer edge of the terminal portion adjacent to the second intersection, the concave recess having a radius of curvature that is adapted to receive a portion of a mounting clip" and "...seating the fence wire in a first pocket in the tool and one of the ends in a recess in the tool." Therefore, it is concluded by the examiner that claims #-# of the present invention are allowable.

Art Unit: 3725

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
